

PARENT CENTER

2010-2011 Annual Parent Survey Results

During the month of March, a total of 1152 parent surveys were sent home. From this amount; we received **213 surveys** with your responses. The following are the results of this survey:

- **Over 70% of parents preferred to have workshops once or twice a year instead of a series of workshops**
- **70% of parents would like to learn more about our extended learning programs such as before school, after school, and/or Saturday school**
- **73% of parents stated that they would prefer to learn what their child will need to know for the next grading period**
- **Over 70% of parents said that they need more support with understanding instructional strategies to use at home**
- **Over 70% of the parents said that they would prefer adult computer classes and English classes to help them support their child's learning**
- **Over 80% of parents preferred their child's teacher to contact them by phone calls**
- **Over 70% of parents preferred the Parent Center's workshops to be held at our local school instead of other places such as neighborhood club houses, nearby middle schools**
